

See your patient, see the young carer

The
Children's
Society

The national census identified more than 166,000 young carers in England. GP and other health agencies are likely to be the first agency that a family turns to for help with an illness or disability.

Visit childrenssociety.org.uk/youngcarers for an information pack of best practice and guidance for health professionals and The Whole Family Pathway, an online resource.

Are you a young carer?

The
Children's
Society

Is your life affected in some way because you provide care and support for someone who:

- * is ill?
- * has a disability?
- * is experiencing mental illness?
- * is affected by alcohol/drug misuse?

If so talk to your doctor or nurse.
